Dec. 2010

## Getting the most out of the Bay Area's premier delivery service

T & C's booth at the Cow Palace Hemp Expo drew thousands of visitors from all over the Bay

## **HOLIDAY FUND DRIVE FOR S.P.C.A.**

As part of our ongoing effort to give back to our patient community, Town and Country will be organizing a holiday fund drive to benefit the East Bay SPCA (Society for the Prevention of Cruelty to Animals).

Throughout the month of

December, our drivers will be collecting donations of canned dog and cat food, blankets, toys, brushes, treats and other related items, which will be delivered to the SPCA. Town and Country will also be providing a separate donation to this important local re-

source. Please help us do our part for our furry friends this holiday season!

*Patients who provide a donation of one of the previous items will receive \$5 off their delivery! (Please mention when placing order.)*

## Ordering Tips

1. **CALL AS EARLY AS POSSIBLE TO SET YOUR APPOINTMENT...** Contacting us a day or two in advance helps us to give a time slot that works for *you*. (Town and Country will reserve your medication... no more "sold out" strains!) We will try our best to accommodate same-day orders if received early that day.
2. **PLEASE LEAVE A MESSAGE...** If you don't immediately get through, don't get discouraged. We check our messages constantly, and respond in the order they were received. When calling to set up an appointment, please leave a brief message with the following information: name, city, phone number and desired medications (with amounts). We will return your call as soon as possible to confirm your appointment. We also accept Internet orders, either via email or through our website. Send us the same information listed above, and we will call to confirm.
3. **DONATIONS...** Our drivers don't carry large amounts of cash. Please try to have exact change if possible. If you are donating via credit card, please have an alternate form of payment available in case of technical problems with our machine.

### **FOR REPEAT MEMBERS ONLY**

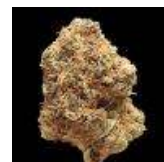

Not able to meet us at home? Repeat T&C collective members (verified, 2 or more deliveries) have the option of meeting us at a public location, such as a shopping center or your place of business. Please call to learn more!

## *Mix and Match*

Town and Country offers "mix and match" weights for patients seeking variety. Order whatever combination of strains that you like... we'll total them up and give you the bulk price!

This is an excellent way for new patients to try out a variety of medications, or for connoisseurs to add some balance to their personal menus.

Craving the storefront dispensary experience? Can't decide between strains? Want to add to an order or browse what we have in stock? Ask to see "The Case", the mobile version of our online menu! (Only available at private homes or apartments).

## LENDING COMPASSION TO THOSE WHO NEED IT MOST

Town and Country recognizes California residents' rights to medical cannabis under Prop 215... and no patient should be left without the means to get their medicine.

We legally serve many qualified patients in cities and counties throughout the Bay

Area which have banned storefront dispensaries (call for current availability). Our drivers are courteous and discreet, and we keep all of our member information private and secured. As always, we are in full compliance with state laws and guidelines regarding medical cannabis.

We also specialize in homebound and disabled patients, or patients with special needs. Let us know any special delivery instructions or concerns that you have, and we will be glad to do whatever we can to get you your meds... it's what we do best!

### GIVING A LITTLE MORE FOR A LITTLE LESS

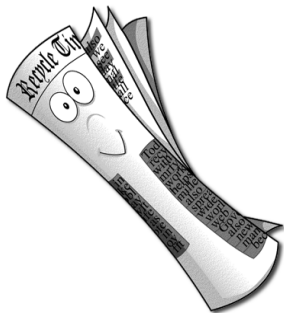

- WEEKLY SPECIALS ON TOP SHELF STRAINS (our special of the week changes often, please check website for current offer)
- 4 GRAM SHAKE EIGHTHS FOR \$35 (TOP-SHELF, SINGLE-STRAIN)
- 4 GRAM EIGHTHS OF HASH AND KIEF FOR \$80
- FREE DELIVERY AND TAX INCLUDED IN MENU PRICE

### Are You Using the Right Strains for Your Medical Condition?

Did you know that OG Kush is an excellent pain relief medication, or Strawberry Cough is good for depression and anxiety? Let the pros at Town and Country help find the strains that are right for YOU!

## Join the Town and Country Patient Community!

Keep up with the latest happenings and specials at Town and Country... subscribe to our email/newsletter list! (Make sure to take us off your spam filter... send us an email through our website or talk to your driver if you aren't on our email list.)

### VISIT US ONLINE

"The on-line registration was easy, and the delivery was prompt, friendly, helpful and best of all...FREE!!!"

"Professional, discreet, affordable, and convenient."

"I will probably never go to a storefront dispensary again."
